

## PRINTING YOUR BADGE

When you've completed customizing your Endeavor Crew ID Badge, view the finished art at the largest size possible on your screen and take a screen shot. Then insert the image into this document and scale it to match the area below. Print at 100%.

Your print at a finished size of 2.875" x 4" (as shown above) can then be trimmed to fit a standard ID Card holder — including the one you may have gotten with a much-in-demand custom *Endeavor* lanyard!
